  Bachelor of Technology - Computer Science and Information Technology   CGPA: 7.9

  – Courses: Web Technology, Web Design, Operating Systems, Data Structures, Theory Of Computation, Discrete Structure Of Theory and Logic, Mathematics, Microprocessor, Computer Organization and Architecture, DBMS, Compiler Design, Design and Analysis Of Algorithms, Machine Learning Techniques

KEY SKILLS

Languages: C++, C, Python, JavaScript

Frameworks and Tools: GIT, Github, Sublime Text, VS Code, MySQL, MongoDB, NodeJS, Linux

Other Skills: Problem Solving, Leadership, Event Management, Public Speaking, Time Management, Quick Learner

EXPERIENCE

- **GDSC-Jssate Noida**

  Full Stack Web developer   January 2023 - Present

  – Built 5+ successful Full stack team projects at GDSC like Slack for college societies.
  – Built backend for 2 significant open-source events like hacktoberFest, GSsoc, etc.
  – Conducted 5+ events and workshops for juniors to teach about web and backend development.
  – Currently working to build a custom Slack for college societies to increase work efficiency by 2 times

PROJECTS

- **Threads Clone**   *Tech Stack: React, Chakra-UI, Node, MongoDB*

  Worked on :

  – API's for user Sign-Up/Login (Used JWT Authentication).
  – Implemented Realtime in-app messaging using Socket.io.
  – Great UI with dark and light modes using Chakra-UI in React.
  – Efficient state management using Recoil in React.
  – Implemented all features of threads by Instagram.

- **Travel World**   *Tech Stack: Node, MongoDB, React*

  Worked on :

  – Integrated OpenAI-powered chatbot for streamlined trip planning in TravelWorld.
  – Beautiful responsive UI using React with core CSS.
  – Users can surf through available hotels around the world, provide ratings, reviews, and more.
  – Users can book their tours beforehand with convenience.

- **PictoFusion**   *Tech Stack: React, Node, Cloudinary, OpenAI APIs*

  Focused on image generation from text and community platform integration.

  – Users can generate any image from the text.
  – Download and share these images to the community platform (Using Cloudinary).
  – Used OpenAI APIs for implementation.

- **CodeX**   *Tech Stack: MERN*

  Developed a fully functional chatbot clone using MERN stack.

  – Uses OpenAi api to enable realtime chatting with the bot.

- **Delishify**   *Tech Stack: API Integration*

  Developed a food recipe app using food APIs.

  – Users can search for any food, as well as recommendations and 4 categories of foods

COURSES AND CERTIFICATIONS

Full stack web development Bootcamp.- Udemy (Certificate)

React by freeCodecamp - FreeCodeCamp (Audited)
